

Building Around a Body Mirror

3 EASY STEPS: CHOOSE A MIRROR, PICK A PLANT, ADD A SEAT

BORDER BEAU

Create a French feel that screams old-money. Pair a gold thick-framed mirror with lots of texture with a Victorian-styled armchair and a potted trimmed shrub.

ASSYMETRICAL

Defy the norm with an unexpected asymmetrical mirror. Stabilize the organic feel with a low-level wooden bench and place a small house plant on the end.

SLIM THIN

When space is tight, opt for a narrow mirror. Spice up the bare side space with a cushioned foot stool and tall, glass vase for flower stems.

STRENGTH IN NUMBERS

To fill a wider wall, layer various sized mirrors next to one another. Round off the sides with a curved chair and palm leaves placed in a woven basket.
